

## Inside the *RESOURCESTOCKS* Diggers & Dealers issue!

*RESOURCESTOCKS*, in conjunction with Intierra Mapping, is producing the new, up-to-date version of its exclusive map, *Australia's 100 Richest Mines*. The full colour map includes a complete listing of Australia's most valuable producing mines, based objectively on 2011 production (by value) and colour-coded for commodity and major geological features. The map includes valuable information on the companies and Australia's mineral production.

*Australia's 100 Richest Mines* map, distributed with *RESOURCESTOCKS* in August, is a valuable resource for mining companies and everyone with an interest in Australia's vital mining industry, and presents a unique opportunity for miners, suppliers and service providers to market directly to the industry's decision-makers.

**Advertising deadline:** June 13, 2012

**Material deadline:** June 18, 2012

(Aspermont artwork design)

**Material deadline:** June 25, 2012
